Commissioner

Re: Waiver Service List

Date: May 15, 2015

On July 1, 2015 the new expanded Medicaid Home and Community Based (HCB) Waiver will begin. This waiver will provide recipients with more options for care as well as increase the service options that agencies such as yours can provide to assist recipients and their families in remaining in their homes and communities.

Under the new waiver, participants will be provided a "Waiver Service List" identifying agencies who have notified DAIL of their desire to provide each waiver service in specific geographical areas. In order to create the Waiver Service List your agency must make business decisions about the services you wish to provide, the area you wish to serve and the conditions under which you will provide the service (i.e operating hours, exclusions, etc.)

Agencies may choose to provide case management **and/or** they may chose to provide direct services such as Adult Day Health, Specialized and Non-Specialized Respite, Goods and Services, Attendant care, Environmental and Minor Home Adaptation, Home Delivered Meals, Participant Directed Coordination and Home and Community Supports to an HCB recipient. As a reminder, your agency can provide both case management services and other waiver services but not to the same individual. No agency can be both case manager and waiver service provider to the same HCB waiver recipient.

Enclosed with this letter is a checklist for your agency to complete and return to the Department for Aging and Independent Living at the above address or email to dailhcb@ky.gov attention Kelli Sheets. Please return the checklist by Wednesday, May 27th. On this list you will choose which services that you will provide. If you have any questions, please direct them to Tonia Wells or Phyllis Culp at 1-877-915-0589.
